ABOUT ME

A self-driven full-stack developer and experienced electronics technician, currently transitioning into web development with a passion for clean, scalable code. I'm completing an intensive program at Semos Academy, where I've built full web apps using modern technologies like React, Next.js, Node.js, and TypeScript. I combine years of technical problem-solving in the electronics space with my new skills in development to bring a unique hands-on mindset to every project.

EDUCATION

BSC IN INFORMATICS AND COMPUTER TECHNOLOGY
Technical Faculty, University 'St. Kliment Ohridski' – Bitola /
